"I had a clear idea of how I wanted my hair to look, and [stylist] Priscilla knocked it out of the park. She did just what I wanted during the trial, and it looked even better on the day of my wedding. I didn't really know how I wanted my makeup to look since I don't normally wear a lot of makeup, but Priscilla worked with me and tried many things until we found the perfect look."

"The customer service is beyond anything I've ever experienced. My wife's engagement ring is custom-designed. We found a couple rings that my wife liked different parts of, and I sat down with a designer and walked through what my vision was. The designer sent me 17 ring designs and said, 'Here, these are all the different options.' We worked it down, and my wife got a ring that incorporated everything she liked from all the other rings."
